Many a house has been built through the aid of the Equitable.

The Equitable encourages saving by furnishing the means of saving small sums that ordinarily a man wouldn't consider. Few men would think of saving \$2.50 a month, yet \$2.50 pays for a share in the Equitable, and the table we'll furnish you, if you ask for it, shows how quickly \$2.50 and its multiples amount up into generous sums. Many use the money thus saved to buy ground—and the Equitable lends them money to build. Some use it for other investments. Glad to have you consult us about taking out shares.
